## EXPERIENCE

### Software Engineer

Verifone

June 2022 – May 2024, Bengaluru, IN

#### • Verifone App Marketplace( Frontend )

Worked on Google Play or AppStore like market for vendors where use Verifone's terminals.

**Stack:** HTML, CSS , JS (Angular on Web, IONIC on custom Verifone Terminal), Git ( Bitbucket ), CI/CD (Jenkins), Kibana.

**Responsibilities:** Applications, Bundle (C.R.U.D., assignment, versioning, whitelisting), Tags Management, White labeling and multitenant (theming). Create and support tool for generation Angular.js. CI/CD process Web/Ionic parts, collaboration with parallel teams. Conducted regular demos at the end of each iteration. Solely responsible for the end-to-end management of the platform, including coding, deployment, and maintenance.

**Collaboration:** Develop UI components using Storybook. Engage in a shared code base through peer reviews and pull requests. Participate in planning, daily stand-ups, and retrospectives. Collaborated closely with software engineers, product managers, and business stakeholders to deliver high-quality software products on time and within budget.

**Achievement:** Manipulated UI changes and design in client side, enhancing the UI by 30% as a User Interface Developer, specializing in JavaScript development with expertise in Angular, particularly working on UI custom Libraries.

#### • Verifone-App-Market( Backend )

Worked on App-market which contains the details of all the Terminal's being used in the Marketplace.

**Stack:** Java 8, Spring Boot, REST API, Microservices, MySQL, Git ( Bitbucket ), CI/CD (Jenkins), Kibana.

#### • Verifone-App-Catalog( Backend )

Worked on Creating a app-catalog which stores the data of all the applications and bundles published.

**Stack:** Java 8, Spring Boot, REST API, Microservices, MySQL, Git ( Bitbucket ), CI/CD (Jenkins), Kibana.

## SKILLS

**Languages:** HTML/CSS, JavaScript, TypeScript, Java, Spring, SQL, C

**Frameworks/Libraries:** Angular, RxJS, ReactJS, Redux, Tailwind CSS, Bulma, Ionic

**Tools:** Jira, Kibana, Jenkins, Bitbucket, Git, SonarQube, Confluence, Postman, AWS, VS Code

## PROJECTS

### Swiggy Clone

- Implemented Swiggy API for seamless integration of essential food delivery functionalities.
- Utilized modern React practices to ensure a responsive and intuitive user interface.
- Ensured high quality and scalability through rigorous testing and efficient architecture design.

### Banking System

- Developed a secure banking system using HTML, CSS, and Java Spring, enabling user creation and seamless money transfers.
- Implemented intuitive user interfaces with HTML and CSS, ensuring a seamless user experience.
- Leveraged Java and Spring for robust backend functionality, ensuring secure user authentication and transaction processing.

## CERTIFICATIONS

### Modern JavaScript / Angular 2024 edition

Udemy • 2023/ 2024

### React

NamasteDev.com • 2024

## EDUCATION

### Post Graduate Diploma in Advanced Computing

CDAC • Pune, IN • 2022

### Bachelor of Technology in Electronics and Communications Engineering

Dr. A.P.J. Abdul Kalam Technical University • Uttar Pradesh, IN • 2019
