EDUCATION

Post Graduate Diploma in Advanced Computing

C-DAC • Pune, IN • 2022

Bachelor of Technology in Electronics and Communications Engineering

Dr. A.P.J. Abdul Kalam Technical University • Uttar Pradesh • 2019

EXPERIENCE

Software Engineer R&D

Verifone

June 2022 – May 2024, Bangalore, IN

• Verifone App Marketplace

Google Play or AppStore like market for vendors where use Verifone's terminals.

Stack: HTML, CSS, JS (Angular on Web, IONIC on custom Verifone Terminal), Git (Bitbucket), CI/CD (Jenkins), Kibana

Responsibilities: Applications, Bundle (C.R.U.D., assignment, versioning, whitelisting), Tags Management, White labeling and multitenant (theming). Create and support tool for generation Angular.js. CI/CD process Web/Ionic parts, collaboration with parallel teams. Conducted regular demos at the end of each iteration. Solely responsible for the end-to-end management of the platform, including coding, testing, deployment, and maintenance.

• Develop UI components using Storybook. Engage in a shared code base through peer reviews and pull requests.

• Participate in planning, daily stand-ups, and retrospectives.

VfAppMarket

Worked on App-market which contains the details of all the Terminal's being used in the Marketplace.

Stack: Java 8, Spring Boot, REST API, Microservices, MySQL, Git (Bitbucket), CI/CD (Jenkins), Kibana

VfAppCatalog

Worked on Creating a app-catalog which stores the data of all the applications and bundles published.

Stack: Java 8, Spring Boot, REST API, Microservices, MySQL, Git (Bitbucket), CI/CD (Jenkins), Kibana

SKILLS

Technologies: HTML, CSS, JavaScript, Angular, React, TypeScript, Java, Spring Boot, MySQL, C, C++

Tools: Jira, Kibana, Jenkins, Bitbucket, Git, SonarQube, Confluence, Postman, AWS

PROJECTS

E-Commerce app

- Build a comprehensive E-commerce application with full authentication capabilities, ensuring secure user accounts and transactions.
- Implemented user registration, login, and password reset functionalities to provide a seamless and secure user experience.
- Enhanced security and user trust through robust account features, contributing to the overall reliability and success of the application.

Swiggy Clone

- Created a Swiggy clone application using Swiggy's API and React for front-end integration.
- Ensured quality and scalability of App through modern React practices, delivering a seamless user experience.
